

# School Ready

## How It Works

Visit [www.schoolreadysupplies.com](http://www.schoolreadysupplies.com) and choose student's school.

Add to cart general supply list by selecting student's grade level.

Choose to label all supplies with student name and school logo or character of choice.

Supply kit order is received and made locally in our South Florida facility.

All completed supply kits are delivered to the school on the date the school selects.
